Petropoulos*

THE CENTER FOR CLASSIC BEAUTY AT THE  
NEW ENGLAND FACIAL COSMETIC SURGERY CENTER  
BOARD CERTIFIED FACIAL PLASTIC SURGEON  
AND FOUNDER

Harvard-trained, Board Certified Facial Plastic Surgeon and Founder of The Center for Classic Beauty at the New England Facial Cosmetic Surgery Center, Dr. Anna Petropoulos pioneered the original implementation of injectables and non-invasive treatments over 22 years ago. She continues to be a visionary leader, lecturing globally on the latest technological advances in facial rejuvenation, concentrating on innovative non-invasive facial and body contouring techniques whilst tightening and retexturizing skin as well as building muscle.

Dr. Petropoulos draws inspiration from the perfect proportions and classical beauty of ancient Greek statues. Like the Great Masters, Dr. Petropoulos crafts natural and harmonious proportions for her patients, keeping them true to their natural self, while creating a more rejuvenated appearance and choosing surgery only as a last resort.

The Center for Classic Beauty boasts an array of regularly upgraded 15 distinct devices to provide varying surgical and nonsurgical customized treatments based on an individual's needs. Employing her philosophy of age prevention through annual skin tightening treatments with various energy-based devices, along with restoration of youthful facial contours with injectables, she maintains the vibrant look of her patients for decades. The first in the country to offer the revolutionary treatment that stimulates the positive elevating muscles while simultaneously tightening the skin, Dr. Petropoulos and her hand-picked, rigorously trained staff, are perpetually on the forefront of evolving medicine.

Dr. Petropoulos thoroughly enjoys bringing exuberance into her patients' lives by creating true and natural beauty for them through her expertise. As their mission statement reads, "We strive to bring joy to our patients' lives by the artistry and excellence of our work."
